

REGIONAL DISTRICT OF BULKLEY-NECHAKO NEWS RELEASE

**For Immediate Release
April 3, 2020**

Regional District Landfills, Transfer Stations and Recycling Depots Operations – COVID-19

The Regional District landfills, transfer stations and recycling depots are open during normal operating hours, and any changes will be posted at <https://www.rdbn.bc.ca/media-status-updates/covid-19-information>

Due to the current COVID-19 situation:

- patrons who are sick or under isolation or quarantine should not visit our sites;
- patrons and staff are required to follow the physical distancing protocol (2m rule);
- patrons are encouraged to wear disposable gloves; and
- only two people at a time will be allowed access to the recycling depot area.

The Regional District understands that while we all isolate at home, it is a great time to do spring cleaning and yard work, however, when handling household waste and recycling, please consider whether it needs to be disposed of immediately, or can it be disposed of later. Please eliminate unnecessary trips to the transfer stations and landfills.
