RFQ: Electric Fence Construction – Ft. St. James

The Regional District of Bulkley-Nechako would like to complete the perimeter electric fence that encloses the Ft. St. James Transfer Station and Recycling Depot. There is currently only cattle fencing along Necoslie Road. The fence line will be cleared and laid out by RDBN Staff as per Figure 2. Please include provisions for the supply of all labour, equipment, and materials for the following features:

- 450m of 8 strand wildlife (bear) fence (See Figure 1),
- Electrical connectivity around the entire site (when all gates are closed),
- Replace or repair the existing fence charger, and
- Inspect and repair any damage to the existing fence.

Figure 1. Fence style to be duplicated.

Figure 2. Fencing Plan

Quotations may be emailed to alex.eriksen@rdbn.bc.ca and will be accepted no later than June 23, 2021. If you have any questions or to schedule a site visit, please contact Alex Eriksen, Director of Environmental Services at alex.eriksen@rdbn.bc.ca or 250-692-0883 (cell).
